Task 1 - Research task:

Research which countries make up the Mediterranean. You may wish to use Google Earth to help with this.

- Why are they called Mediterranean countries?
- Which continent is the Mediterranean a part of?
- What kind of climate do Mediterranean countries have?
- Why do you think many people choose to go on holiday to Mediterranean countries?
- Which currency of money is used in the Mediterranean countries?

You might choose to make notes, type up your findings or discuss it with your family.
