YEAR 6 RELATIONSHIPS EDUCATION

We are starting our RSE work with Year 6 next week. We are alerting you to this topic in case your child wants to ask you any questions. We will email out a pack if your child is not attending school now. We do not want to put it on the home learning site due to some of the images. Please go over this with your child, for those children in school, the children will bring their pack home once all the work has been completed, again we would expect you to go over things with them. Thank you in anticipation of your support. *Mrs Todd*

Parents Years 2 -5

I have added a number of items to the website this week, a key stage worship for Years R-2 by Fr John and one for Years 3-5 by Fr John both are on the theme of Corpus Christi. I will also be adding this week's Friday worship as well. Mrs Filarowski has also completed two mediations for the children – we suggest you light a candle and play some quiet music in the background. (These are on the Worship in Lockdown page) There is a video of me reading the Whale and the Snail for new starters but other younger children might like to watch it. (I know there are many of these resources on line delivered by famous people and I am not pretending they are of this standard but we are doing our best. Please see the section on Symphony Maths and if your child has not completed the summer assessment yet can you do this next week. Thank you in anticipation of your cooperation on this matter. *Mrs Todd*

Reception, Year 1 and Year 6

I am delighted with how well the partial reopening of school has gone this week. The year 6 pupils have come back so sensible, and mature. They have taken to social distancing immediately and they are complying with our new behaviour policy perfectly. It is a massive culture change, staying in seats, sitting 1.4 metres apart – however some are positively enjoying the space and the quiet atmosphere as learning is interspersed with handwashing etc.

Symphony Maths

The **next test is available** on Symphony Maths – please make sure you complete this as soon as possible – you may need paper and a pen to work things out. This will allow all children to be placed where they need to be – some may go further and some may have to consolidate previous learning and revisit some concepts.

Year 6 – 8 children in year 8 have completely finished Symphony Maths. 3 children Eirinn, 180 minutes, Lucas – 119 minutes and Ashton 53 minutes have now completed the summer assessment. If you have not been on Symphony Maths for a while please get on it and complete the summer assessment – let's see where you are - and try to get as many Year 6 children to finish before September – so that you get to High School as confident as possible with all the Year 6 objectives that Symphony Maths covers.

Year 5 – 15 year 5 children have completed the summer assessment – this is very useful for staff as it tells us if you are at risk of not meeting end of year expectations. Let's try and get the rest of you on next week. Stars of the week this week are, **Mazie, 113** two weeks in a row and Sam and Bailey who have both completed 60 minutes

Year 4 - 14 year 4's have completed the summer assessment – well done those children. **Riley** is the super star of this week with **200 minutes** well done you! but also to Victoria, Max (130) and Shea (123) have both done really well. Followed by Florence (99), Daisy 72 and Ciara 60, with Spencer (52) and Lylah (50_ also doing good minutes.

Year 3 – 13 year 3's have completed the summer assessment – well done you guys! Star of the week is Chloe with 155 minutes. Other children that have used symphony maths regularly are Theo 73 Luca R 120 , Jessica H 59, James 66 and Imogen 63– keep it up children.

Year 2- 20 year 2 children have competed the test – well done this is the highest response – lets see if everyone in year 2 can complete it before next Friday. **Ivy** 113 you were the star of Year 2 this week.

Year 1 – 5 children from year 1 have completed the assessment. If your child is in school we will try to get them on next week but if you can do it at home this would be useful. Stars of this week are Lacey 100 and Halle 93 well done you two!

Rec- 8 children have completed the assessment in the Reception class. Stars of this week are Freddie N, Frankie and Niamh and Hughie,

LEXIA

Year 6 – Lucas and Kya big minutes you two well done!

Year 5 Oliver O'R, and Mazie the stars of Year 5 in terms of Lexia minutes – well done you two this will really help you prepare for Year 6.

Year 4 – Riley P – again and other hard workers this week are Niamh 159, Max 118, and Finbar – these names keep coming up – well done guys!

Year 3 – From Year 3 downwards GIRL POWER seems to rule – lets get some more boys names down here next week. Big minutes again by Chloe, Phoebe and Ava 60 – well done you three.

Year 2 – Ivy and Eva – were WOW again this week – well done you girls!

Year 1 –, Esabella and Mae this week out shone everyone else. Well done you two girls.

We still have a couple of spare licences for Lexia – Lexia goes up to a reading age of 14 and has lots of year 6/7 level word and grammar work. Do let me know if you would like your child to have a boost before we break up.

PLACES IN SCHOOL (Year 3 for 2020)

We do have one space in our school for next year! This is in YEAR 3 for next year (the current year 2)–so if you know any Catholic families that move into our area please let them know. It would be good to get this slot filled. *Mrs Todd*

MUSIC

The Virtual Big Sing

We are excited to inform you about the Virtual Big Sing taking place this afternoon at 2pm and repeated on Sunday afternoon. The children will really enjoy singing along with some very popular songs. Use the link below to register.

PHOTOGRAPHS

Charlotte (3) has made an Egyptian model of her own face from plaster cast! Wow Charlotte, this is very impressive!!

Shea (4) has made a greek temple from Gingerbread as part of his Ancient Greece task! That's fantastic Shea!

Ava (3) has done lots of things during lockdown – she has even turned her hand to decorating! Well done Ava, we know who to call on when the school needs a revamp!

Max (5) has been looking at plant reproduction and pollination and made his own flower after labelling his worksheet! Fantastic work Max!

Isla (3) made a game about 'Healthy Eating' which brother Noah (5) enjoyed playing too! They have been busy with their English and Maths, and Noah has learnt all about the history of the British Monarchy! Great work both of you!

Emily (6) has designed and made her own PPE facemask! That's great Emily – we know where to come for more equipment now!

Emma (3) has been working hard on her Science and Egypt work over the past few weeks. Well done Emma!

Mazie (5) has enjoyed hosting a quiz night with her friends! Whilst little sister Ivy (2) has watched the progress of her hanging baskets that she planted a few weeks ago! Great work girls!

Sam (4) has enjoyed making a lemon battery for his Science work! Wow that looks interesting Sam!

Danny (1) has been very busy in the month of May! He learnt to ride his bike, and challenged himself to ride every day of the month – and he did 90 miles!! He also raised £400 for Avsed! What an achievement Danny, we are very proud of you!

Charlie (5) has enjoyed keeping fit and riding his bike in a local park! Well done Charlie!

A special mention to Jacob (3) who has done something extra special this week! We are very touched by your act of kindness Jacob, the children will be extremely grateful we are sure!

As part of Jacob's RE work this week on how he shows the fruits of the Holy Spirit, he made treat bags for children because a local charity, Safe Haven, are asking for donations of food and children's supplies to help families out in these hard times. Jacob was moved when his Mum told him that some children might not get treats as their grown ups might be using the families money to pay bills and there may not be money left over for treats. Jacob filled 14 treat bags and sat in the car whilst his Mum delivered them. He plans to make more and his brother, Luke, will help
