

Robins Class Newsletter 26th June 2020

What have we learned this week?

It has been a very hot week for our Robins, but they have continued to do amazing playing and learning! We have enjoyed playing with the sports equipment and setting ourselves challenges, making potions and recipes, eating fruit ice lollies and having a water fight!

The children are absolutely amazing me with their phonics! They are all working so hard on their blending and segmenting of these slightly longer words. The children are remembering to use their strategies to hear the second consonant sound either at the beginning or end of the word!

In Maths, we have done lots of addition and subtraction to really practise those skills and become super confident with counting on and back!

Some photos from the week

A Message for the children

You are all total superstars! We have had lots of talks about being thankful for what we have around us and I am just so proud of how thoughtful and caring you all are.

We have also talked lots about becoming Year 1 Kingfishers this week and I know you are just going to be amazing Year 1 learners!

Keep reading lots at home and having lots of fun with your families! x

A Message for parents

Please continue to read regularly with your child using the books that are uploaded to Tapestry.

Miss Roberts has been setting some exciting Year 1 challenges on the KGA Reception Ambassadors group – check them out and see if your children can have a go! We will be completing them at school and it would be great if home learners could too!

Have a lovely weekend!
