As you may be aware the Year groups at Whitley and Eggborough vary considerably in number across the school with the smallest being 24 and the largest 40 and therefore we are unable to maintain discreet year groups. Please note that we have organised the classes on where we feel the children will be best placed to progress with their learning and self-confidence as well as taking into consideration the class sizes within the school, which are all very similar. Children in all classes will be taught their age appropriate curriculum and challenged accordingly to their needs.

For the majority of children for 2020/2021 they will remain with their existing class groups and move together as a class. The exception for this is for some children moving to Year 6 and for a group of children moving to Year 1. In these instances, I will be writing to parents and carers alongside this letter to share their child's class.

Therefore, if you do not receive an additional letter (including Year 1 and 6) from me please assume that your child will be remaining with their current class and will move to the next teacher as per the list above.

Wherever possible, we try and ensure that throughout the year children in split year groups spend time together studying, playing and on school trips.

We are aware that the year group split can cause concerns for parents and children, however we have endeavoured to make the best decisions for all our children based on suitability of

provision and need and staffing. Please note that in order to maintain reasonable class sizes for all we will not be moving any children from their allocated class.

Yours sincerely
