

Update

What another busy week it has been in school. We have had lots of transition activities for our Year 6 children and the Year 1 children have continued with their challenge to learn to ride the balance bikes – even despite all the wet days. Slideshows will be uploaded to the website showing many more fun activities.

I am aware we have not released a letter detailing what September will look like yet, that is because we have been asked to wait until the Local Authority letter has been sent first. However, we have not received the letter as yet so we will update you as soon as possible.

Reports were sent out on Wednesday, by email or post. I hope you enjoy reading them as much as I did. It is a real pleasure to read about the relationships and the journeys that the children have been on - even if it was for a shorter period this year. A letter was sent, via email, detailing more about where you would expect your child to be with regards to progress - please do get in touch if you need more clarity. We would really appreciate it if you could complete the receipt letter at the back of the report, this has some vital information that is needed in school - many thanks.

On Wednesday we will be sending out, via email, information about the new classes for September. You will receive a letter stating which class teacher your child will be with, a collage of pictures showing who your child will be with, a meet the teacher and teaching assistant poster, a Summer Project, the Autumn 1 newsletter and a video introducing the team and a virtual tour of the new classroom. The teachers have really enjoyed producing these for you and they are very excited to meet their new classes. I am really pleased to announce that no members of the team are leaving us this year. So all the familiar faces, that you know and love, will be ready to greet you in September.

We are also trying to gather information with regards to technology at home. **So please email school with the answers to the following questions. Have you got access to a computer at home? Can you access the internet?** Many thanks for this.

Hello!

In the week when it was announced that pools and sports facilities are to reopen and almost a third of lemurs are now critically endangered, Rivelin Y6 children enjoy a visit to their secondary school.
