

Friday, February 5th 2021.

Dear parents / carers,

We are all hoping that now the vaccination programme is being rolled out successfully, schools will be able to open safely to all children sooner rather than later. The current date for us to be able to welcome all children back is 08.03.21, but this still has to be confirmed. As soon as we know, I will send out a text message to you all so that you can get your children back to school.

Thanks for all of your help with home learning. We know how hard it is, especially if you have a few children all wanting to get on tablets, phones and laptops at the same time. That's one of the reasons we've planned the home learning as we have done, so that they can do it to suit you and your family.

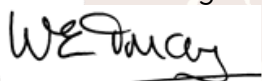

This week's saying has been 'a sweet tooth'. Can your child explain what it means to you, and can they put it in a sentence?

As well as today's letter, you'll find a poster about mental health on the Friday letter page. It has some contact details for if you, or somebody you know, would like further information about mental health, or where to get some support from.

Stay safe and well.

Yours sincerely,

Ms W E Tracey
Headteacher
