Home Lateral Flow Testing Kits in Primary Schools

Dear All,

Below is some useful information around collecting and ordering Lateral Flow Testing kits for home use with your children/ families.

Collecting Test Kits

You can collect 2 packs of home test kits at a local collection point. Each pack contains 7 tests. Anyone 18 or over will be able to collect these. Most collection points are open from 1.30pm to 7pm. You can check online if the location is open or busy before you go and you do not need to make an appointment. We have been asked that you don't visit a collection point outside opening hours, as it may be used to test people with coronavirus symptoms outside these times. To find you nearest collection point, please see the link below.
