

ASH GREEN WEEKLY NEWS

PRIMARY SCHOOL

Another fantastic week in school for our children. Time is flying and we only now have 9 school days left before Easter! A reminder that we break up on Thursday 1st April as the next day is Good Friday so Friday 2nd April is the first day of a well-deserved Easter break!

REMOTE LEARNING PLANS

Our staff are continually evolving plans for Tapestry and Seesaw to be used when our children are IN school as well as out! We will be developing systems so that parents and carers will be sent examples of their children's work, celebration activities and performances. We have been so impressed with your engagement with Seesaw and tapestry, please do keep logging on!

IMPORTANT NOTICE

The Fire Brigade were called out three times on Wednesday night in the Clough Lane area. This was due to fires being lit by children of various ages.

Apparently there were primary age children there including young children in OUR school uniform. It is clear some of your children were present and I would urge parents and carers to speak with their children about this.

Our teaching staff has reinforced the dangers and also the waste of time for our emergency services.

At the same time, this is another example of groups of children mixing out of school which should NOT be happening.

Please keep the children with you outside of school- we know the GREAT majority of our families and children are following all guidance.

Thank you for your support.

COVID CLARITY

Thank you for all your support on all things Covid! As you know, it is essential we all follow guidance in and out of school. We will always- with this newsletter- provide detailed advice on everything linked to Covid-19 but key points we must follow are:

- Children must not attend school if showing a main symptom of high temperature, new cough, loss of smell/taste. A PCR test should be arranged- school can help with this if you are unsure.
- If any household member shows symptoms then the entire household must isolate until a negative test is returned- or for 10 days if no test or a positive test!
- If a child has been in contact with a positive case they must isolate for 10 days regardless of a subsequent negative test for the child.
- If a member of the household has been in contact with a positive case, that person must isolate for 10 days regardless of a subsequent negative test for that person- children can still attend unless a household member subsequently shows symptoms.

FURTHER DETAILS ARE ON PAGE 2 AND 3 OF THIS NEWSLETTER!

THANK YOU

A big thank you to all parents and carers for your patience, understanding and adherence to the social distancing rules when collecting children at the end of the day. Could we ask that people don't gather in groups on school grounds and help us to keep 'traffic' flowing!? Thanks for your support.

COMIC RELIEF

How nice it was to see children in their own clothes and some wearing red noses to celebrate Red Nose Day.

Thank to everyone for their kind donations. We will have raised plenty of money for Comic Relief.

Children will have a fantastic time this afternoon, playing games and eating goodies to celebrate all the birthdays missed during lockdown.

Keeping Families Safe in Calderdale

COVID-19 related absence from school or childcare: a guide for parents and carers

The main symptoms of coronavirus (COVID-19) are:

- **a high temperature** – this means you feel hot to touch on your chest or back (you do not need to measure your temperature)
- **a new, continuous cough** – this means coughing a lot for more than an hour, or 3 or more coughing episodes in 24 hours (if you usually have a cough, it may be worse than usual)
- **a loss or change to your sense of smell or taste** – this means you've noticed you cannot smell or taste anything, or things smell or taste different to normal

Most people with COVID-19 have at least 1 of these symptoms.

If your child has any of the main symptoms of COVID-19

- Keep your child at home.
- Arrange a test online (search NHS COVID-19 testing) or by calling 119 as soon as possible.
- Anyone your child lives with, and anyone in your support bubble, must also stay at home. When you get your test result you will be advised what to do

If you or your child are worried about COVID-19, speak to your health visitor or school nurse

Health Visiting Team: 030 0304 5076

School Nursing Team: 030 3330 9974

What to do if...	Action needed	Return to school/setting when...
...my child has one or more of the main COVID-19 symptoms	<p>...the test comes back negative. If the test comes back negative, see advice below. If you are unable to get a test for your child within 5 days of them developing symptoms, you must follow the advice below</p> <ul style="list-style-type: none"> → Arrange a test for anyone in the household with symptoms → Inform school/setting about test result 	<ul style="list-style-type: none"> → Do not come to school/setting → Contact school/setting to inform us → Self-isolate the whole household including siblings → Arrange a test for anyone in the household with symptoms → Inform school/setting about test result
...my child has a runny nose, sore throat, headache, sickness or diarrhoea but doesn't have	<ul style="list-style-type: none"> → Contact school or setting to inform us if your child won't be attending → Ring on each day of illness 	... they feel well enough to do so, and after 48 hours following the last bout of sickness or diarrhoea
...my child tests positive for COVID-19	<ul style="list-style-type: none"> → Do not come to school/setting → Contact school/setting to inform us → Self-isolate the whole household including siblings <ul style="list-style-type: none"> - For anyone with symptoms: this is for at least 10 days from when they started with symptoms - For anyone who doesn't develop symptoms: this is for at least 14 days from when the first person started 	<p>...10 days have passed since symptoms began, and the child feels well and does not have a temperature. The child can return even if they still have a cough or loss/change to their sense of taste or smell as these symptoms can last for several weeks</p> <p>Remember, others in your household may still be self-isolating</p>
... I am unable to get a test for my child within 5 days of them developing symptoms of COVID-19	<ul style="list-style-type: none"> → Do not come to school/setting → Contact school/setting to inform us → Self-isolate the whole household including siblings <ul style="list-style-type: none"> - For anyone with symptoms: this is for at least 10 days from when they started with symptoms - For anyone who doesn't develop symptoms: this is at least 10 days from when the first person started with symptoms 	<p>...10 days have passed since the symptoms began, and the child feels well and does not have a temperature. The child can return even if they still have a cough or loss/change to their sense of taste or smell as these symptoms can last for several weeks. Remember, others in your household may still be self-isolating. If the child is a contact of a confirmed case, develops symptoms, and cannot get a test, they must continue to self-isolate for the full 10 days</p>
...my child tests negative for COVID-19	<ul style="list-style-type: none"> → Contact school/setting to inform us → Discuss with us when your child can come back 	<p>...they feel well enough to do so, unless:</p> <ul style="list-style-type: none"> → Anyone else in the household has tested positive for COVID-19 in the last 10 days → Anyone else in the household has symptoms and hasn't received a negative test result → They are a contact of a confirmed case → They have returned from abroad are required to quarantine (as per current Government advice)
...someone in my household (other than my child) has COVID-19 symptoms	<ul style="list-style-type: none"> → Do not come to school/setting → Contact school/setting to inform us → Self-isolate the whole household → Arrange a test for anyone in the household with symptoms → Inform school/setting about test result 	... the test comes back negative or ten days have passed since the person started with symptoms

What to do if...	Action needed	Return to school/setting when...
<p>...someone in my household (other than my child) tests positive for COVID-19</p>	<ul style="list-style-type: none"> → Do not come to school/setting → Contact school/setting to inform us → Self-isolate the whole household <ul style="list-style-type: none"> - For anyone with symptoms: this is for at least 10 days from when they started with symptoms. For anyone who doesn't develop symptoms: this is at least 10 days from when the first person started with symptoms 	<p>... 10 days have passed since the person developed symptoms</p> <p>If your child develops symptoms during this time, you should arrange a test. If they test positive or are not tested they must stay at home for 10 days from when they started with symptoms</p>
<p>... I am unable to get a test for someone in my household (other than my child) within 5 days of them developing symptoms COVID-19 symptoms</p>	<ul style="list-style-type: none"> → Do not come to school/setting → Contact school/setting to inform us → Self-isolate the whole household including siblings <ul style="list-style-type: none"> - For anyone with symptoms: this is for at least 10 days from when they started with symptoms - For anyone who doesn't develop symptoms: this is at least 10 days from when the first person started with symptoms 	<p>... 10 days have passed since the person developed symptoms</p> <p>If your child develops symptoms during this time, you should arrange a test. If they test positive or are not tested they must stay at home for 10 days from when they started with symptoms</p>
<p>...Someone in my household had a test for COVID-19 but the result was inconclusive</p>	<ul style="list-style-type: none"> → Continue to self-isolate the whole household → Arrange a retest if possible within 5 days from the person starting with symptoms. → If you are unable to arrange a retest, follow advise above for "I am unable to get a test" 	<p>... 10 days have passed since the person developed symptoms, if unable to get a retest.</p> <p>if able to get a retest, see advise boxes on what to do it someone tests positive or negative for COVID-19.</p>
<p>... my child has been identified as a contact of a confirmed COVID-19 case</p>	<ul style="list-style-type: none"> → Do not come to school/setting → Contact school/setting to inform us → If the contact was within school/setting, you will receive a notification letter from us → Do not arrange a test unless your child develops symptoms → Siblings can continue to attend 	<p>... 10 days have passed since the person developed symptoms (or since the date of their test if they did not have symptoms).</p> <p>If your child develops symptoms during this time, you should arrange a test. If they test positive or are not tested they must stay at home for 10 days from when they started with symptoms</p>
<p>... someone else in my household has been identified as a contact of a confirmed COVID-19 case</p>	<ul style="list-style-type: none"> → The household member must self-isolate for 10 days → The person should not arrange a test unless they develop symptoms → Child can continue to attend school → Siblings can continue to attend 	<p>... child can continue to attend</p>
<p>... I've heard that someone at school has tested positive for COVID-19</p>	<ul style="list-style-type: none"> → If your child is identified as a contact, you will be notified and advised what happens next 	<p>... child can continue to attend</p>
<p>... my child has travelled abroad</p>	<ul style="list-style-type: none"> → If your child is required to quarantine (as per current Government advice), contact school/setting to inform us → If your child is not required to quarantine, they can return to school/setting → You should not arrange a test for COVID-19 unless your child develops symptoms 	<p>... your child has completed quarantine, if required</p>
<p>... I have received medical advice that my child must resume shielding</p>	<p>Do not come to school/setting Contact school/setting to inform us</p>	<p>...you are informed that restrictions are lifted, and shielding is paused again</p>
<p>... someone in my household has symptoms of COVID-19 but a lateral flow test (LFT) they use for work is negative</p>	<p>→You must arrange PCR testing in the usual way. LFT should not be used to rule out COVID-19 in someone who has symptoms or who has been in contact with a positive case</p>	<p>... the PCR test comes back negative or 10 days have passed since the person started with symptoms</p>
