

NEWSLETTER – 16.04.21

This week . . .

It has been lovely to see children back after the Easter holidays! Their attitudes and behaviour have been great, and there are lots of tired children (and staff!) today as everyone has been working so incredibly hard!

COVID-19 Risk Assessment

This has been updated following changes to government guidance. You will find the current risk assessment on our school website.

Exciting news!

From next Monday, our reception children (classes 2, 3 and 4) will be having their lunches in the dining room – for the first time! Reception children will be going downstairs to collect their lunches and eat them in the dining room. We are hoping that if we can get this to work, we will be able to get more year groups going down for school meals before the end of the school year.

This week's saying . . .

Scarce as hens' teeth.

what are other words for like gold dust?

rare, scarce, thin on the ground, at a premium, in great demand, in short supply

Thesaurus.plus

Can your child tell you what it means? Can they use it in a sentence correctly?

Ramadan started this week, and we send our thoughts to all families fasting.

Meetings for parents / carers

We have started holding our meetings instead of parents' evening this week. You will have received a text message letting you know when each of your children's meetings are, and then you will get a reminder the day before the meeting. Please come to the middle front door (KSI entrance) and Mrs Rennox will look after you. Please wear a mask whilst you are in school. If you can't make your appointment, please let us know, and we will be able to arrange an alternative for you. Thank you.

Attendance

This week's attendance stars are classes 6 (92.8%) and 19 (95.5%) – well done to both! Overall attendance in school is now 92.8%. We could really do with this improving!

Punctuality

There were no children late last week in classes 11, 16 or 19 – well done!
