Thursday 29th April 2021

Dear Parents

As part of our growing topic 'It Starts With a Seed...' Corvus Class will be visiting Milton Park. This local trip will involve the children participating in various activities in order to explore the following science objectives.

- To identify and name a variety of common wild and garden plants, including deciduous and evergreen trees
- To use the local environment to explore plants growing in their habitat
- To observe changes across the four seasons

The children will explore these objectives through: participating in a Spring scavenger hunt; completing tree rubbings; creating art using natural materials; identifying trees; and collecting and ordering sticks. The children will also have a chance to visit the play area.

The trip will take place on Monday 17th May 2021. We will be travelling by foot, leaving at approximately 1.15pm. Pupils will need to wear school uniform and a waterproof coat will be needed on this day. If it is sunny, please provide a sun hat and apply sun cream before your child attends school.

Pupils will be in school for lunch and so they can have a home packed lunch or school lunch, as usual.

If you are available to help with the trip and hold a current DBS disclosure through the school, please indicate on the permission slip.

Yours sincerely

Miss Bulbeck
Corvus Class Teacher
