

# Wimborne Weekly - April 5

## Platinum Homework Reward

At Wimborne, we like to recognise and celebrate the children who go above and beyond in their topic homework. Each year, we reward the children, who have achieved 30+ points over the course of the academic year with a reward trip. Although the details of the reward this year are not fully confirmed (due to Covid) we know that we want to do something to celebrate the children's hard work. Consequently, due to many children not attending school for the majority of the Spring term and therefore not necessarily completing topic homework in the normal way, we have decided to reduce the expectation to 20+ points (which can be earned at any point over the academic year). Anyone achieving this, by the time the Summer 2 topic homework is marked, will receive the platinum homework reward. More details about this event will be revealed later in the term.

## School Jotter App

We are introducing a new mobile app to complement our school website. You can now keep up to date with all the school news, receive notifications instantly and have newsletters sent directly to your mobile phone or tablet with the new school jotter mobile app.

To find the app simply search for school jotter within your app store and download for free from either your Android or I-phone. When you open the app search for Wimborne Primary School in the top search box by typing the schools name or postcode, once our school has been selected by you it will automatically appear each time you go on the app. Please ensure that you have notifications enabled on the settings tab within the app so you are able to receive push notifications.

The app will link to all the news added to the school website and and we will be gradually using the app to replace our facebook notifications so please do take the time to download it.
