Friday 21<sup>st</sup> May 2021

Dear Parents

We have had another lovely week in Foundation learning about plants and growth. We have investigated the different conditions that a plant needs to grow and have enjoyed observing the results. We have continued to look after our sunflowers and they are starting to get quite tall now! Next week our topic will move on to animals and we will be learning about farm animals.

In literacy this week we have been practising composing our own sentences and remembering the words as we write. In numeracy we have been learning about money this week.

## **Interhouse Cycling Day**

Just a reminder that on Thursday 10th June the school will be holding an interhouse cycling day. Your child can come to school with a bike or a scooter on this day, but everyone must have a cycle helmet. Thank you.

## **Things to Practise at Home**

- Play shops. Have a selection of items to sell and a selection of coins. Can your child remember which coins are worth the most? Can they add two coins together and calculate the value.
- Show your child an interesting picture. Can they compose and write a sentence all by themselves about that picture? Think about capital letter, finger spaces and full stop.
- Read your child's reading book with them and pop a comment onto Tapestry.

That's all for this week. If you have any questions or queries, please don't hesitate to come and speak to a member of the Foundation team.

Have a lovely weekend.

Regards

The Foundation Team.
