

Year 4 Newsletter – 17<sup>th</sup> September 2021

### Our learning this week:

This week in maths, we have been learning how to order and compare 4 digit numbers. The children have completed a range of fluency challenges and thoroughly impressed me with their fantastic reasoning skills.

In English, we have been using a range of skills, when writing to inform. The children have worked extremely hard and have successfully learnt how to use subordinating conjunctions to extend their sentences and bullet points to organise their writing.

In learning mission, we have been learning about the countries and cities of the United Kingdom. There has been some great map work, London art and riddles to guess the capital city.

In science, we have been learning about animal classification, focusing on vertebrates.
