

## Kingfishers Class Newsletter 1<sup>st</sup> October 2021

**Love • Kindness • Self-Belief • Aspiration**

### What have we learned this week?

In Maths, we have been recapping our skills in calculating one more and one less.

In English, we've published our writing retelling part of the story Somebody Swallowed Stanley.

In Phonics, we have continued revising our digraphs and trigraphs from reception.

In Learning Mission, we've been doing some geography fieldwork to discover how much wildlife we have in our school grounds. After finding we didn't have as much as we were hoping for, we've made a bug hotel to hopefully attract more wildlife.

### A Thought for this Week

Having explored one way to increase our wildlife in school during Learning Mission, can you think of any other ways we could encourage more wildlife to return to the school grounds?

### Stars of the week

Stanley – for his ambition and hard work in learning mission.

Krystal – for always showing such kindness to others.

### Home Learning Challenge

Complete some more geography fieldwork in your garden or another outdoor space – how many bugs can you find?

### Reminders

A number of clothing items have gone missing at school, please could you check at home that your children have brought home the correct uniform. In addition, please remember to name all items to help prevent this in the future.

We ask that children do not bring toys into school, to prevent them getting lost or damaged.

Please could all children bring in a picture of their family for the 'Our Family' display in our classroom. This could include anyone special to them (including pets!). Please do send multiple pictures as required and we'll create a wonderful wall of love!

### School Dates

15<sup>th</sup> Oct – Individual Photos

18<sup>th</sup> Oct – Harvest Festival
