

MATHS WEEK

Last week we enjoyed another successful Maths Week in Ampertaine. Through the week, each class had different maths activities to do..thinking particularly about numbers as well as finding lots of things connected with maths on a 'Scavenger Hunt'. On Wednesday we all dressed up in maths clothes too..what a busy week we all had and more importantly, had fun while we were learning!

Look on our school website and class pages for more photos of our fun week of activities.

Scavenger Hunting

While we were dressed up on Wednesday when the weather was nice and dry, all classes were able to get outside to find 'maths' all around us on our Scavenger hunts. We REALLY enjoyed using our 'maths eyes'..have a look on each class website page for more photos
