St. James' Catholic Primary School

Mission Statement:

St. James' Catholic Primary School
aims to provide an education for all,
which has at its very heart
the values and ideals of the teachings of Jesus Christ.

**We achieve the aims of our
Mission Statement by:**

- promoting within each child a positive self image.
- encouraging and sustaining each child's natural curiosity and spontaneity, promoting the development of a lively, enquiring mind through involvement in a variety of relevant and challenging first-hand experiences.
- enabling children to acquire and develop a range of skills and concepts, with the ability to apply these in all areas of the curriculum.
- developing children's ability to use all forms of communication, recognise purpose and choose the most appropriate medium in which to express themselves.
- encouraging all children to live in social harmony; to have respect and tolerance of other races, religions and cultures and to understand the world in which they live.
- helping children to formulate a code of moral values and understand the ways in which their actions and decisions affect others.
- developing the ability and willingness to co-operate with others and recognise the interdependence of human relationships.
- helping children to find pleasure in the exploration of their imagination, senses and feelings, and by providing a full range of creative experiences.
- promoting all aspects of the physical and emotional well being of each child.

All children have an equal Entitlement to the above.

"To provide an education for all, which has at its very heart the values and ideals of the teachings of Jesus Christ."
