

5/6JM have learned about Modal verbs, Lists, Punctuation, Similes, Onomatopoeia, clauses, Idioms, Personification, Adverbs and S.P.A.G. S.P.A.G is spelling, punctuation and grammar. It's when you use all the things above and use it in your work/tests.

Modal verbs are would, should and could. To get a good level 5 you need to use modal verbs.

Lists are when you list things for example: My favourite chocolate are: Malteser; Galaxy; Milky Way; Cream eggs and Buttons.

*There is a variety of Punctuation (. , ; : ! " " ?)
"What did you say?"*

Similes are when you talk about two things that are similar for example; Sam was as loud as a lion.

Clauses are when you give another bit of information instead of using brackets. The boy, who loves art, lives down my road.

Idioms are expressions. It is raining cats and dogs, not really. It's an Idiom it really means it's raining heavily. Another is blow your socks of. It means amazing. I'm over the moon that means so happy. Piece of cake, it's when you think some thing is easy.
