

## Chinese Music by Hashim and Danyaal

Hello we are the Roving Reporters and we are writing to tell you about Chinese music for Chinese New Year. While we were learning about Chinese music we learnt a song:

One tadpole has one big head;

2 black eyes that shine in front;

One long tail behind his head;

Wibbly wobbly wibbly wobbly;

There he went.

We learnt so much about Chinese instruments. We saw a yang tin, pe pa guitar and a shuin. The shuin is made out of clay. With the Chinese yang tin you do not touch it with your hand because it is sharp. You tap the strings extremely gently. We also learnt that red is China's lucky colour.
