

## Paper folding by Sadia and Suweyba

Hello, we are the Roving Reporters. We are here to report about paper folding (which is origami) in year 3. While we were there we learnt lots of new things. We learnt that at Chinese New Year they eat a special food called 'Dumplings'. We also learnt that this year, which is 2014, is the year of the horse.

The visitor taught us how to make a paper spinner.

You will need:

2 pieces of paper - any colour you like

### **Step 1**

Fold corner to corner neatly.

### **Step 2**

Open it up and fold it again but the other way.

### **Step 3**

Fold all the corners into the middle point.

### **Step 4**

Fold it into the middle point again.

### **Step 5**

Now you must fold it outwards.

### **Step 6**

Fold corner to corner make sure you will have two creases.

### **Step 7**

Fold corners into the middle point.

### **Step 8**

Turnover and do the same.

### **Step 9**

Put both inside and you're done.

Hope you have a good time making the spinners!
