

Number	Place Value	Addition and Subtraction	Multiplication and Division	Fractions (including decimals and percentages)
<p style="text-align: center;">YEAR 3</p> <p style="text-align: center;">Objectives to be covered during the Autumn Term</p>	<p>Recognise the place value of each digit in a three-digit number</p> <p>Compare and order numbers up to 1000</p>	<p>Add numbers with up to three digits, using formal written methods of columnar addition</p> <p>Solve problems, including missing number problems, using number facts, place value, and more complex addition</p> <p>Add and subtract numbers mentally, including: a three-digit number and ones, a three-digit number and tens, a three-digit number and hundreds</p>	<p>Recall and use \times and \div facts for the 2, 5 and 10 multiplication tables</p> <p>Count from 0 in multiples of 4, 8, 50 and 100; find 10 or 100 more or less than a given number</p> <p>Write and calculate mathematical statements for \times and \div using the \times tables that they know, including for two-digits \times one-digit numbers, using mental and progressing onto formal written</p>	<p>Recognise, find and write fractions of a discrete set of objects; unit fractions and non-unit fractions with small denominators</p> <p>Count up and down in tenths; recognise that tenths arise from dividing an object into ten equal parts and in dividing one-digit numbers or quantities by ten</p>

	Measurement	Geometry - Properties of Shapes	Geometry - Position, and direction	Statistics
<u>YEAR 3</u> Objectives to be covered during the Autumn Term	<p>Measure the perimeter of simple 2-d shapes</p> <p>Measure, compare, add and subtract length (mm, cm, m, km)</p>	<p>Draw 2-d shapes</p>		<p>To interpret and present data using bar charts, pictograms and tables</p>
