

This leaflet has been produced to raise awareness of the many sports clubs that are running in the local area for children.

At Treleigh we pride ourselves on providing our children with opportunities to participate in a variety of sports.

A recent survey conducted with pupils found that 59.8% of our KS2 children participate in sport outside of school (excluding swimming lessons).

Whilst this is an encouraging statistic, it is our aim at Treleigh to encourage more of our children to take part in regular physical activity. We truly believe that sport and physical activity can provide something for everyone!

Participation in sport provides opportunities for young children to build confidence and self-esteem, improve their social interaction skills and most of all, improve and maintain their personal health and fitness. Early participation in sport is shown to increase the likelihood that young people will continue to participate and lead healthy, active lifestyles into later life.

Please take the time to have a look at the various clubs on offer within the local community.

If there is a club that you are interested in, which is not listed in this leaflet, please contact me and I will endeavour to find something appropriate for you.

Similarly, if you have any other questions, please do not hesitate to contact me.
