

Delph Side Solar Energy

Did you know we have solar energy being made on our roof tops which saves school money on bills?

ENERGY MADE = MONEY SAVED

5th December 2011 to 30th November 2012 we generated 30,095 kWh of energy through the solar panels.

From 2012 to 2014 the Solar Panel generated 30.095 KWh – 1,821 kWh per month.

THE SOLAR PANEL SAVED US MONEY!!!!!!!

We will monitor this over the next school year.
