

Pupil Premium 2013-14

Amount of allocation: £164,869

	Target group	Cost	Intended impact on school	Intended impact on learning	Outcomes 2014
Staffing Additional support staff Support/intervention teachers Interventions support staff Parent Support Advisor	Individual and specific groups for specific interventions – reading, phonics, Eal, maths All parents	£117,419	Staff take responsibility for ensuring all are accountable for progress of Pupil premium pupils Parents feel empowered to participate more fully in their children’s learning	Increase in confidence levels and improved rate of progress A greater range of help for parents including signposting to meet individual needs.	Interventions: there is notable progress in confidence levels and progress made by groups of children. IstClass@Number1 - a typical gain of 8 months on average is made by children participating in These intervention programmes thereby closing the gap. Better Reading Partnership - gains made range from 3 months to 18 months. Project X Code - gains made range from 5 months to 18 months. PSA work has impacted on attendance and behaviour habits at home.
Specific Maths interventions	Year 6 pupils generally and specifically more able	£4,470	Improved standards in maths across the school	Higher number of level 5+ at the end of KS2	Attendance has begun to improve (94.8%) and is getting closer to the national average. End of KS2 outcomes - 85% at level 4+ in maths, 36% at level 5+ and 8% at level 6.

STARKS FIELD

Place2be (inc resources and equipment)	Pupils with emotional and behaviour issues	£20,550	Settled pupils with improved attitude to learning not disrupting learning of others	Improved rate of progress of children receiving support and accelerated progress of children	Place2be started slowly as it was the first year of it being established but impact spread quickly. Place2Talk sessions became very popular. Waiting list of children to see counsellor for 1:1 support.
Staff training and development	Staff identified to be trained for specific interventions	£4,500	Establish a culture of effectively timetabled interventions	Improved standards for individuals	Staff are confident and enthused about interventions work and the success they have seen is motivating other support staff who wish to be trained up.
Enrichment experiences and Specific support	Identified individuals (including bereavement counselling)	£14,951	A rich and varied curriculum with specific support.	Improving confidence levels and wider experiences away from school/home (eg trips, Y6 residential)	Greater enjoyment of reading Although end of KS1 outcomes show poor standards in writing, during Alien Spaceship week, there was evidence of very good writing produced. Benefits of residential – overcoming fears (eg of heights), learning to manage independently away from families and opportunities to participate in a range of activities not immediately available locally. Excellent behaviour of children who went to the theatre to see Wicked. Same cohort were commended highly, by a member of the public, for their behaviour on the ferry to the residential.
Resources and equipment		£2,979	Sufficient resources for intervention groups and for teaching using Numicon	Good quality resources for children to support progress.	See above
