Dear parent/carer,

RE: Spellings for Homework

Due to feedback from many parents and children themselves, I am aware that the current way of learning spellings can be quite tedious and challenging for many children. Therefore we are proposing a new, hopefully more fun way to do this. Attached is a leaflet with games and activities your children can do when they are given spellings to learn every week.

The idea is that the children choose the activity they like the most. At the bottom of each page there is a number. Each activity is worth that many points. The children need to accrue 20 points every week. Therefore they can do either 2 activities at 10 points each or 4 at 5 points etc. It's up to them.

I hope this will be a more fun way to learn. Any feedback will be greatly welcomed. Thank you for your continued support.
