

Our Aims and Our Values

“Bringing Learning Alive”

At Walkern School we aim to:

give all children the opportunity for a broad and balanced education so that they can maximise their potential to learn and be prepared for life:

enable our children to develop academically, spiritually, socially, culturally and morally:

We will achieve this by providing our children with:

a safe environment within which they can learn with confidence;

a challenging curriculum which is taught in accordance with national standards;

a range of activities, resources and teaching according to their needs as a whole and as individuals;

support and stimulation to promote the desire to learn;

a positive example for them to follow;

opportunities to develop self respect and self discipline so that they can take responsibility for their own actions;

a strong, collaborative partnership between families, the school, the community and the local education authority.

Our values are:

all our children are entitled to dignity, respect, guidance and to develop their full potential;

that none of our children will suffer discrimination on the grounds of their race, faith, gender or ability;

for our children and their families to be entitled to our honesty;

for all our staff members to promote and support their own and each others professional development.

all our children are entitled to be kept safe from harm.
