

Our Value in May is **UNITY**

- **collective strength and harmony**
- **many parts making a whole**

At school we will approach the value of UNITY through situations familiar to the children. Our focus will include being a member of a football or netball team, playing in a recorder or ocarina group or working together to raise money for charity. Our message will be that actions and initiatives involving a number of committed people are more likely to result in a successful outcome than things which are approached individually. Emphasis will be placed on the school as a unit and the importance of everyone, children, staff, parents and governors working together in unity and harmony to ensure its success.

Thought for the month: 'United we stand, divided we fall.' *Aesop*

At home have a competition to see who can identify the most football teams with 'united' in their name and discuss why this name is chosen so often. Take on a simple project as a family and work together until it is complete for example plan and prepare a meal when each person has a part to play and you can then all enjoy the fruits of your labours! The garden is another place where working together can be beneficial to all. Whatever you decide to do enjoy the togetherness and the results!
