We believe these values are the means to enabling the children in our school to develop into individuals who demonstrate all aspects of good citizenship.

The values underpin our school community which strives for enjoyable, broad-based, stimulating and high quality learning experiences in a supportive yet challenging educational setting with high standards of teaching.

The school shares, encourages and demonstrates positive values with our children in order that they understand them and grow to live by them.

We seek to promote an educational philosophy based on valuing self, others and the environment. This approach helps pupils develop a secure sense of self and a respect for others.

As a staff, we strive to enable all children to reach their full potential in a happy, safe and caring school.
