What I liked about the book was Rodrick tells his brother that he is not a proper man unless he goes on a really scary rollercoaster ride and he is always bullying him.

What I did not like about the book. There was not really anything that I did not like about the book because it was extremely good and funny.

There are seven main characters Gregory's family Gregory Rodrick Manny their mum and dad Rowley's family Rowley his mum and dad

I would recommend this book to anyone who is into humour and someone who get jokes and humour really easy.
