

What interventions does the school deliver, and how could they support my child's progress?

Some children may require interventions of a one to one nature for short periods of time. These are overseen by the class teacher and progress is carefully monitored.

The SENCO and Headteacher are responsible for the allocation of one to one group interventions support timetable for the School. This information is detailed within the School's Provision Map. The Provision Map shows the various levels of support for children with additional needs throughout the academy.
