

E-safety Summer Update

We surveyed our pupils from Key Stages 2 onwards about e-safety and their internet usage. Unsurprisingly a lot of our pupils shared that they like to spend a large percentage of their leisure time on devices which can access the internet.

With the summer holidays approaching and an increase in leisure time for our children and young people we would like to take this opportunity to encourage you to take an interest in what they are doing online. Research conducted by CEOP shows that this is the **most effective** way to keep your children safe online.

Some of the most effective ways to keep our children and young people safe online are:

- *spending time with your children online,
- *talking to them about what they are doing online
- *having some basic rules (amount of screen time they can have and what to do if something upsets them)

Don't forget that if you need to report something online look for the CEOP reporting button

You can also find additional information and support on our school website.

Wishing you all a happy and healthy holiday!
