

## **Sophie Jacomb**

I am a Y2 teacher at SGI school and been at the school for the past 7 years. I am part of the Senior Management Team as leader of Y2 and English. I am responsible for the progress and attainment of our 120 Y2 pupils and for the development of teaching and learning in English across the Foundation Stage and KS1.

I am passionate in providing every child in our school with the best possible start in their educational journey through immersing them in experiences in which they can explore, question and develop as learners.

For the past 6 months I have been working with our teaching team on developing and promoting SMSC links and British Values within our school and I am keen to develop further links with the local community
