

A Message from Chair of Governors at Woolley Wood School – Ann Kilby

I am your Chair of Governors and I have been a governor at Woolley Wood School since the late 1970's. My first contact with the school was in 1974 when our son was a pupil at school. After we lost him we have continued to support the school with both fund raising and also my role as a governor.

Woolley Wood School is very special to me and I believe it is a school that puts its pupils first and ensures that they achieve their potential.
