

School Health News

Hopefully the summer will bring us beautiful sunshine, fingers crossed! With this in mind we need to be thinking about being sun smart, so please can you:

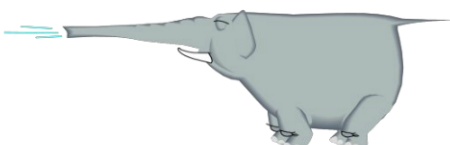

Sunblock your child before school.

Provide your child with a named water bottle.

Provide them with a named sun hat.
Thank you.

Please can you keep checking your child's hair at least once a week. If we all keep checking then hopefully we can stop head lice becoming a bigger problem.

HAY FEVER, Hay fever is an allergic reaction to tree, grass and weed pollen. It can cause reactions to the nose, eyes, throat and sinuses. This can result in sore itchy eyes, sneezing or runny noses. If you have any worries about your child and hay fever please come into school and talk to us.

Thank you for all your support. Fiona Hook.
