

Year 6 Spring Term 4 Theme

Science and Technology:

We are studying light. We are going to be exploring how we see things, how shadows are formed and can be changed.

In DT we are going to be using last term's electrical circuit knowledge to build models with working parts.

Faith and Belief:

Our religious work will continue to focus on Christian beliefs about the natural world - looking at the wonderful world that God has created. We will now be looking at the negative aspects of our world such as natural disasters, animal extinction and why people suffer.

Arts and Creativity:

In music, we are composing our own Samba inspired music.

Disaster!

Context:

In our curriculum we will be looking at what happened to ancient Mesoamerican societies and how these great civilisations ended. We will also be looking at volcanoes and how they are formed, as well as looking at why bad things happen in our world.

Place and Time:

We will be finishing our studies on life during the ancient civilisations of the Mayan and Aztec empires, focussing on their demise. Our work will also focus on volcanoes, looking at how they are formed, what causes them to erupt and the impact of this.

Language, Oracy and Literacy:

This term we are going to be looking at stories containing flashbacks and focus on advancing our writing of action scenes. We will also be developing our journalistic style to write newspaper reports.

Mathematics:

- Fractions
- Percentages
- Rotation, reflection and translation
- Statistics
- Algebra
- Roman Numerals
- Measures

Physical and Emotional Health/Citizenship and Ethics:

Our outdoor PE focuses on tag rugby. We will also be looking at playground games and how we can play fairly and ensure everyone has a positive experience.
