

The Digital Passport

Sign up for the Leeds Digital Passport and you will learn all the basic skills to make the most of computers and the internet.

Once you have completed some essential training, you will have the chance to decide what you want to explore, depending on your hobbies, likes and dislikes.

At the LS14 Trust we passionately believe everyone should have access to the digital world and that includes you.

The Leeds Digital Passport will help you to become more confident at using I.T. and online services and on top of that we hope that it will be great fun.
