

Doot do, doot doot doot do!
Doot do, doot doot doot do!

Ev'ry day when the sun shines down on me
Doot do, doot doot doot do!
I feel like singing a cheerful melody
A cheerful melody
And deep within my heart I hear the music start
And I just gotta sing 'cause I'm happy as happy can be!

Gonna sing my song	Gonna sing my song
All the whole day long	All the whole day long
Gonna share my music with ev'ry-one I see	
When I sing my song	When I sing my song
Nothing can go wrong	Nothing can go wrong
So I'll make my music and set my spirit free.	

Ev'ry night when the stars begin to glow
Ev'ry night when the stars begin to glow (oh)
I hear the melody playing sweet and low
It's playing sweet and low
That happy little tune is with me night and noon
And I just gotta sing
Gonna tell ev'ry-body I know

Gonna sing my song	Gonna sing my song
All the whole day long	All the whole day long
Gonna share my music with ev'ry-one I see	
When I sing my song	When I sing my song
Nothing can go wrong	Nothing can go wrong
So I'll make my music and set my spirit free.	

Gonna sing, gonna sing and	Gonna sing
And set my spirit free	
Doot do, doot doot doot do!	
Doot do, doot doot doot do!	
I'm free
