March News and Safety Letter

Be extra careful if crossing at traffic lights.

Look right, left and right again before you cross. If there is a car you could get run over unless you cross safely.

This road safety page is important because we are here to keep you safe.

Please read this information carefully.

JTA PATROLS

Lately parents and carers have been seeing people in yellow hi-visibility vests. This is because the JTA's have been doing many patrols and have been giving out leaflets and parking tickets trying to promote people to park and stride. Parking and striding is important to the environment as well as us humans.

It is also very important that we are considerate of the local residents. We are encouraging people to avoid blocking up Spencer Road.

Thank you for your help. The JTA's really appreciate it.

Health and safety

When you walk you keep your health in excellent condition!!! On the other hand if you drive, you would be decreasing your health ... When you walk it gets you closer to your goal which is to do ten thousand steps per day. That is how many steps you are supposed to do every day.

It's also vital to Earth's condition because your car would be polluting the Earth. It's also harming us because we breathe in this gas which could even kill us, plants, animals and tress .You could reduce this dreadful problem by parking in Northwick Park and walking to school. You could park there for three hours by dialling the number on the notice board!!!
