

Sport Premium Grant 2015/16

Background

The Government is continuing to provide funding for the academic year 2015/16 to enable schools to make additional and sustainable improvements to the quality of PE and sport they offer.

The premium should be used to develop or add to the PE and sport activities that schools already offer and to make improvements now that will benefit pupils joining the school in future years.

Allocation

Funding for schools will be calculated by the number of eligible primary aged pupils (between the ages of 5 and 11).

Based on a full year all schools with 17 or more primary aged pupils will receive a lump sum of £8,000 plus a premium of £5 per pupil. Smaller schools will receive £500 per pupil.

Funding Period

The sport funding for this academic year will be paid in two parts. Mr David Cameron has announced proposals to keep the funding rolling for another five years taking the grant to 2020. The school will receive £5188.75 in November 2015 and £3706.25 in May 2016.

Accountability

Schools will be held to account for how they spend the sport funding. Ofsted has strengthened its coverage of sport and PE within the Inspectors' Handbook and supporting guidance, so that schools and inspectors know how sport and PE will be assessed in future as part of the school's overall provision offered. Schools should publish the amount of grant received; how it has been spent (or will be spent) and what impact the school has seen on pupils' PE and sport participation and attainment as a result, to help to ensure that all pupils develop healthy lifestyles.

Cottesbrooke Infant School

Academic year 2015/16

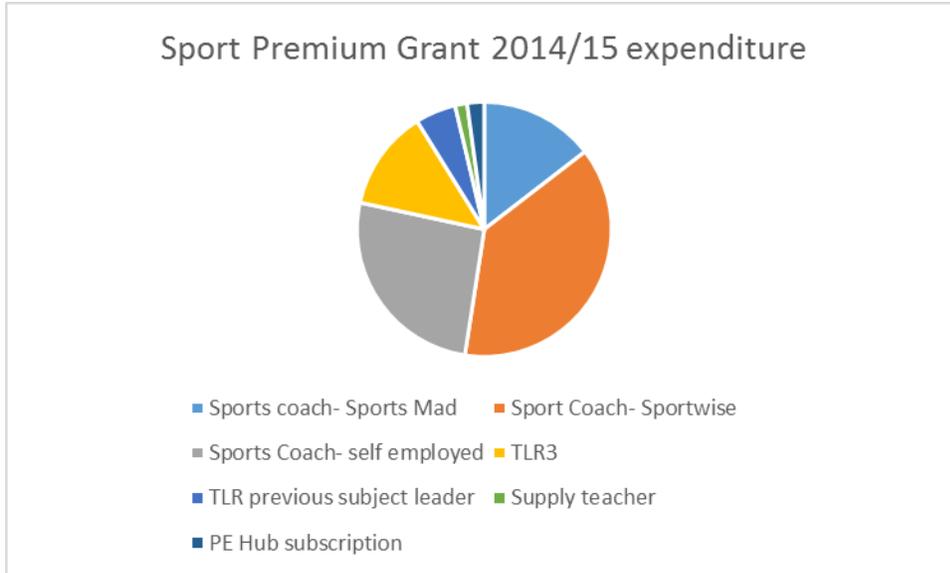

Spending:

The school will receive a grant of £8895 for the academic year 2015 -16. This money will be used in a number of different ways to support the provision of improved quality of sports, PE and physical activity for all pupils:

How we plan to spend the funding:

Sports coach to develop active lunchtimes and playtimes, support PE lessons, lead intervention groups, organise competitions and lead after school clubs.	£6527
Sports Mad club (twice weekly after school club)	£1260
Provide existing staff with training or resources to help them teach PE and sport more effectively. Identify areas for whole school development and provide in-house training. Introduce new sports or activities and encourage more pupils to take up sport.	£1108

Impact of primary school sports funding 2014/15

Impact of primary school sports funding 2014/15

Sport premium funding has been used to improve the provision of physical activity across the school. The school has employed a sports coach to develop physical activity in our school. The sports coach has been successful in enthusing our children to take part in sports during and after school. The sports coach has created opportunities for increased sports and physical activity during playtimes and lunchtimes. He has been particularly successful at targeting boys to pursue an interest in sport. Our coach was able to target children who were at risk of falling in to the overweight category and worked with these children to carry out rigorous exercise in addition to the physical activity endured in compulsory PE lessons.

Additionally, money was spent to provide additional after school clubs with a physical focus from the Sports coach company who deliver dance lessons in our school. This has enabled children across the school from reception to year 2 to take part in a range of sports outside of the school day, these have proven to be popular and once again, raised the profile of physical activity in our school.

Funds were spent on supporting the subject leader to work alongside the sport coach and analyse physical provision in the school. The school also subscribes to an outside agency to support staff with planning and assessing PE lessons.
