

## **School E-Safety Policy**

Mowden Federation has an appointed e-Safety Coordinator Rebecca Howland / Duncan Turner / Rachel Grayson (Computing Subject Leaders). The Designated Child Protection Officer is Mary Parker (Deputy Head).

Our E-Safety Policy has been written by the computing subject leaders and Senior Leadership Team, building on the Durham County Council e-Safety Policy and seeks to incorporate the current government guidance. It has been agreed by the senior leadership team and has been recently approved by the school governing body in March 2016.

The E-Safety Policy for Federation of Mowden Schools (Academy Trust) will be reviewed annually. This policy will next be reviewed in March 2017.

### **Why is Internet Use Important at Mowden?**

The purpose of internet use in school is to raise educational standards, to promote pupil achievement, to support the professional work of staff and to enhance the school's management information and administration systems.

Internet use is part of the statutory curriculum and is a necessary tool for learning. It is an essential element in 21st century life for education, business and social interaction. Access to the Internet is therefore an entitlement for pupils who show a responsible and mature approach to its use. Our school has a duty to provide pupils with quality Internet access.

We accept that pupils will use the internet outside school and will therefore need to learn, inside school, how to evaluate internet information and how to take care of their own safety and security.

### **How does Internet Use Benefit Education?**

Benefits of using the internet in education include:

- access to world-wide educational resources including museums and art galleries;
- inclusion in the National Education Network which connects all UK schools;
- educational and cultural exchanges between pupils world-wide;
- access to experts in many fields for pupils and staff;
- professional development for staff through access to national developments, educational materials and effective curriculum practice;
- collaboration across support services and professional associations;

- improved access to technical support including remote management
- exchange of curriculum and administration data with the Local Authority and DFE; access to learning wherever and whenever convenient.

### **How can internet Use Enhance Learning?**

- The school internet access will be designed expressly for pupil use and includes filtering appropriate to the age of pupils. This filtering is provided by Northern Grid for Learning.
- Pupils will be taught what internet use is acceptable and what is not and given clear objectives for Internet use.
- Internet access will be planned to enrich and extend learning activities.
- Staff will be expected to guide pupils in on-line activities that will support learning outcomes planned for the pupils' age and maturity.
- Pupils will be educated in the effective use of the internet in research, including the skills of knowledge location, retrieval and evaluation.

### **Authorised Internet Access**

- The school will maintain a current record of all staff and pupils who are granted internet access.
- All staff must read and sign the 'Acceptable ICT Use Agreement' before using any school ICT resource.
- Parents will be informed that pupils will be provided with supervised internet access.
- Parents will be asked to sign and return a pupil 'Acceptable ICT Use Agreement' after discussing it with their child as appropriate.
- Any individuals requiring internet access while at Mowden Federation will read and sign the 'Acceptable ICT Use Agreement' before using school ICT resources.
- Staff should not access the internet for personal use during formal teaching time. Staff may access the internet for personal use in the staffroom during break and lunchtimes. Staff may access the internet for personal use in the classroom after 3.30 providing there are no children present.

## **World Wide Web Protocol**

- If staff or pupils discover unsuitable sites, the URL (address), time, content must be reported to the Senior Leadership Team via the e-safety coordinator or network manager.
- School will ensure that the use of Internet derived materials by pupils and staff complies with copyright law.
- Pupils will be taught to be critically aware of the materials they are shown and how to validate information before accepting its accuracy.
- Pupils will be taught to use search engines appropriately for their age.
- The evaluation of online materials is a part of teaching and learning in every subject and will be viewed as a whole-school requirement across the curriculum.

## **Use of Email**

- Pupils may only use approved e-mail accounts.
- Pupils must immediately tell a teacher if they receive offensive e-mail.
- Pupils must not reveal personal details of themselves or others in e-mail communication, or arrange to meet anyone without specific permission.
- Access in school to external personal e-mail accounts for pupils will be blocked.
- E-mail sent to external organisations should be written carefully and authorised before sending, in the same way as a letter written on school headed paper.
- The forwarding of chain letters and virals is not permitted. Adults and pupils are encouraged not to open emails from suspicious / unfamiliar sources.
- Staff should not use personal email accounts during formal teaching time. Staff may access their personal email account in the staffroom during break and lunchtimes. Staff may access their personal emails in the classroom after 3.30pm providing there are now children present.
- The Federation of Mowden Schools will have a dedicated email for reporting e-Safety and cyberbullying issues.

## **Social Networking**

- The school will control access to social media and social networking sites.

- Pupils will be advised never to give out personal details of any kind which may identify them and/or their location. Examples would include real name, address, mobile or landline phone numbers, school attended, IM and email addresses, full names of friends/family, specific interests and clubs etc.
- Pupils will be advised about sensible use of social network space.
- Pupils will be advised on security and privacy online and will be encouraged to set passwords, deny access to unknown individuals and to block unwanted communications. Pupil will be encouraged to approve and invite known friends only on social networking sites and to deny access to others by making profiles private.
- Staff wishing to use Social Media tools with students as part of the curriculum will risk assess the sites before use and check the sites terms and conditions to ensure the site is age appropriate. Staff will obtain documented consent from the Senior Leadership Team before using Social Media tools in the classroom.
- Concerns regarding students' use of social networking, social media and personal publishing sites (in or out of school) will be raised with their parents/carers, particularly when concerning students' underage use of sites.
- Staff personal use of social networking, social media and personal publishing sites will be discussed as part of staff induction and safe and professional behaviour will be outlined in the school Acceptable Use Policy.
- All members of the school community are advised not to publish specific and detailed private thoughts, especially those that may be considered threatening, hurtful or defamatory.
- Personal publishing will be taught via age appropriate sites that are suitable for educational purposes. They will be moderated by the school where possible.
- Staff should not refer to the school, its pupils or members of staff on social media or in personal publishing space e.g. blogs online.
- Staff may interact with parents in social media spaces but must ensure that these interactions are professional at all times.

## **Filtering**

The school will work in partnership with the network manager and Internet Service Provider to ensure filtering systems are as effective as possible.

- The school's broadband access will include filtering.
- The school will have system in place to make changes to the filter, including deciding who is responsible for authorising changes.
- The school will work with the network manager to review filtering
- The school will have a clear procedure for reporting breaches of filtering. All members of the school community (all staff and all pupils) will be aware of this procedure.
- If staff or pupils discover unsuitable sites, the URL will be reported to the School e-Safety Coordinator who will then record the incident and escalate the concern as appropriate.
- The School filtering system will block all sites on the Internet Watch Foundation (IWF) list.
- Changes to the school filtering policy will be risk assessed by staff with educational and technical experience prior to any changes and where appropriate with consent from the Senior Leadership Team.
- Any material that the school believes is illegal will be reported to appropriate agencies such as IWF, local Police or CEOP

### **Managing Emerging Technologies**

- Emerging technologies will be examined for educational benefit and a risk assessment will be carried out before use in school is allowed.
- Pupils will be instructed about safe and appropriate use of personal devices both on and off site in accordance with the school Acceptable Use Policy.

### **Use of Mobile Devices**

- The sending of abusive or inappropriate messages or content via mobile phones or personal devices is forbidden by any member of the school community and any breaches will be dealt with as part of the school discipline/behaviour policy.
- Staff mobile phones and personal devices will be switched off during formal school time. Mobiles/personal devices may be kept in classrooms and used in emergency situations. Staff may use their mobile phone/personal device during break and lunchtimes in the staffroom or office. Mobile phones/personal devices may be used in the classroom after 3.30pm providing there are no children present. Mobile phones/personal devices,

including those with camera facilities, are not permitted within EYFS teaching areas. Staff working within EYFS must leave their mobile phones/personal devices in their personal locker within the staff room. The exception to this would be the occasional use of a school owned mobile phone/camera and only by the Head Teacher or Deputy Head Teachers.

- Visitors to school will be required to turn their mobile phone/personal device off when entering the building. In exceptional circumstances visitors may use their mobile phone/personal device while in school.
- Electronic devices of all kinds that are brought in to school are the responsibility of the user. The school accepts no responsibility for the loss, theft or damage of such items. Nor will the school accept responsibility for any adverse health effects caused by any such devices either potential or actual.
- Staff are not permitted to use their own personal phones or devices for contacting children, young people and their families within or outside of the setting in a professional capacity.
- Staff will use a school landline phone where contact with pupils or parents/carers is required.
- If members of staff have an educational reason to allow children to use mobile phones or personal device as part of an educational activity then it will only take place when approved by the Senior Leadership Team.
- Staff should not use personal devices such as mobile phones/personal devices or cameras to take photos or videos of pupils and will only use work-provided equipment for this purpose. The exception to this would be the occasional use of a school owned mobile phone/camera and only by the Head Teacher or Deputy Head Teachers.
- Staff may use a mobile phone/personal device at break/dinnertime only and must seek an area of privacy to make the call – such as the staffroom or the school office. Mobile phones/personal devices may be used in the classroom after 3.30pm providing there are no children present
- Any mobile device must be checked for viruses and spam content before being attached to the school network.
- Any use of mobile technology to intimidate, bully, harass or threaten others will be counted as an infringement of network use. This may result in disconnection from the network or legal or civil disciplinary action. Uploading images and sound is only permissible if the subject involved gives permission.

### **Pupil Use of Mobile Devices**

- Pupils are told not to bring mobile phones/personal devices to school.

- The school will have a clear protocol for dealing with illegal content on a pupil owned device. The device should be isolated and the police contacted to help preserve evidence. It should not be further investigated by the school.
- The school will have a system for dealing with inappropriate content on pupil owned devices. Where inappropriate content is found on pupil owned devices the school will confiscate the device and contact parents or carers to discuss.
- If a pupil is found to have a mobile phone/personal device in school it will be removed and placed in the school office for collection at home time.
- School staff may confiscate a phone or device if they believe it is being used to contravene the schools behaviour or bullying policy. The phone or device might be searched by the Senior Leadership team with the consent of the pupil or parent/carer. If there is suspicion that the material on the mobile may provide evidence relating to a criminal offence the phone will be handed over to the police for further investigation.
- Federation of Mowden Schools (Academy Trust) cannot be held liable for the loss, damage or theft of personal devices brought to school by children.

## **Cyberbullying**

Cyberbullying can be defined as “The use of Information Communication Technology, particularly mobile phones/personal devices and the internet to deliberately hurt or upset someone” (DCSF, 2007).

- Cyberbullying (along with all other forms of bullying) of any member of the school community will not be tolerated. Full details are set out in the school’s policy on anti-bullying and behaviour.
- All incidents of cyberbullying reported to the school will be recorded using the e-Safety log.
- Pupils, staff and parents/carers will be advised to keep a record of the bullying as evidence.
- The school will take steps to identify the bully, where possible and appropriate. This may include examining school system logs, identifying and interviewing possible witnesses, and contacting the service provider and the police, if necessary.
- Pupils, staff and parents/carers will be required to work with the school to support the approach to cyberbullying and the school’s e-Safety ethos.
- Sanctions for those involved in cyberbullying may include:

- The bully will be asked to remove any material deemed to be inappropriate or a service provider may be contacted to remove content if the bully refuses or is unable to delete content.
- Internet access may be suspended at school for the user for a period of time.
- Other sanctions for pupils and staff may also be used in accordance to the schools anti-bullying or behaviour policy.
- Parent/carers of pupils will be informed.
- The Police will be contacted if a criminal offence is suspected.

## **Laptops**

Laptops for teachers are the property of the school and should be treated like any other school computer.

- The user is responsible for ensuring the privacy and security of data held on any laptop and for ensuring the integrity of such data by keeping antivirus software up to date, as a minimum.
- The laptop should not be used by third parties, by family members or be used as a games machine. It should not be loaned out to third parties. It should be kept in a secure location at all times, whether on or off the school site.
- Connection of the laptop to the Internet makes it highly susceptible to interference from outside and this should be borne in mind when using it to browse the web. Laptops containing sensitive pupil data can easily be compromised by connection to any network, but particularly to the Internet, and this data could be procured by any third party via an Internet connection or perhaps a home wireless network.
- School laptops should not be connected to a third party wireless broadband connection without that party's knowledge and/or permission. Doing so is a very serious matter and could lead to civil action.
- Laptops brought into school for repair by technicians will be subject to scrutiny if found to contain any virus or suspicious software or document, including dubious images. Any unsuitable content or usage discovered will be reported to the Headteacher in the first instance.
- Peer to peer (P2P) software must not be installed on any laptop e.g. LimeWire, Kazaa, or illegal Napster-type music sharing sites.
- The school reserves the right to audit any school laptop on demand and report any findings related to misuse e.g. pornography or illegal software, to the relevant authority.
- Staff who terminate their employment or are on long term sick leave should return their laptop to the School ensuring that any personal data has been backed up and or removed

## **Protecting Computers from Theft**

- All computer equipment is security marked.
- Laptop cabinets are locked securely each night and are the responsibility of the Staff.

- Teacher in charge checks equipment at the end of each lesson and makes sure users are logged off and equipment shut down.
- Borrowing Hardware – Any member of staff wishing to borrow a computer for use at home during school time will need to follow the school procedures and obtain permission from the Computing Subject Leader and Deputy Headteacher and, once approved, sign the computer out in the school office.

### **Published Content and the School Web Site**

The contact details on the school website will be the school address, e-mail and telephone number. Staff or pupils personal information will not be published.

The head teacher and nominees – Alistair Johnson, Mary Parker, Alison Cockerill and Maureen Morison will take overall editorial responsibility and ensure that content is accurate and appropriate. Web content management system (CMS) is provided by Webanywhere.

### **Publishing Pupils' Images and Work**

- Images or videos that include pupils will be selected carefully and will not provide material that could be reused.
- Pupils' full names will not be used anywhere on the website, particularly in association with photographs.
- Written permission from parents or carers will be obtained before images/videos of pupils are electronically published.
- Pupils work can only be published with their permission or the parents.
- Written consent will be kept by the school where pupils' images are used for publicity purposes, until the image is no longer in use.

## **Information System Security**

- School ICT systems capacity and security will be reviewed regularly by the curriculum committee.
- Virus protection will be installed and updated regularly by the network manager
- Security strategies will be discussed with the governing body, network manager and the Headteacher.

## **Protecting Personal Data**

Personal data will be recorded, processed, transferred and made available according to the Data Protection Act 1998.

## **Assessing Risks**

- The school will take all reasonable precautions to prevent access to inappropriate material. However, due to the international scale and linked Internet content, it is not possible to guarantee that unsuitable material will never appear on a school computer. The school cannot accept liability for the material accessed, or any consequences of Internet access.
- The school will audit ICT use to establish if the e-safety policy is adequate and that the implementation of the e-safety policy is appropriate and will report as necessary to the Headteacher.

## **Responding to Incidents of Concern**

Internet technologies and electronic communications provide children and young people with exciting opportunities to broaden their learning experiences and develop creativity in and out of school. However it is also important to consider the risks associated with the way these technologies can be used.

- All members of the school community will be informed about the procedure for reporting e-Safety concerns (such as breaches of filtering, cyberbullying, illegal content etc).
- This will take the form of an e-Safety breach log which will be completed by the person present at the time of the breach. These will be kept in the DriveStorage area. A hard copy will also be placed in the e-Safety folder and an electronic copy emailed to the e-Safety coordinators.
- The e-Safety Coordinators will record all reported incidents and actions taken in any other relevant areas e.g. Bullying or Child Protection log.

- The Designated Child Protection Coordinator will be informed of any e-Safety incidents involving Child Protection concerns, which will then be escalated appropriately.
- The school will manage e-Safety incidents in accordance with the school discipline/ behaviour policy where appropriate.
- The school will inform parents/carers of any incidents of concerns as and when required.
- Where there is cause for concern or fear that illegal activity has taken place or is taking place then the school will contact the Children's Safeguard Team or e-Safety officer and escalate the concern to the Police.

### **Handling E-Safety Complaints**

- Complaints of Internet misuse by pupils will be dealt with by the Computing Subject Leader and the Headteacher.
- Any complaint about staff misuse must be referred directly to the Headteacher.
- Complaints of a child protection nature must be always dealt with in accordance with school child protection procedures.
- Pupils and parents/carers will be informed of the complaints procedure.
- In the event of misuse discussions will be held with the local Police Authority to establish procedures for handling potentially illegal issues
- An Internet E-safety Breach log will be held in school to record any incidents and any actions taken as a result. This will be kept as an electronic copy in DriveStorage. A copy should also be emailed to the computing coordinator and Designated Child Protection Officer.

### **Communication of Policy**

#### Pupils

- Pupils will be informed that Internet use will be monitored.
- Pupil instruction regarding responsible and safe use will precede Internet access.
- An e-Safety module will be included in the PSHE, Citizenship and/or ICT programmes covering both safe school and home use.
- e-Safety rules or copies of the student Acceptable Use Policy will be posted in all rooms with Internet access.

- Safe and responsible use of the Internet and technology will be reinforced across the curriculum and subject areas in relation to the acceptable use policies.

### Staff

- The e–Safety Policy will be formally provided to and discussed with all members of staff.
- To protect all staff and pupils, the school will implement Acceptable Use Policies.
- Staff will be made aware that Internet traffic can be monitored and traced to the individual user. Discretion and professional conduct is essential.
- Up-to-date and appropriate staff training in safe and responsible Internet use, both professionally and personally, will be provided for all members of staff.
- All members of staff will be made aware that their online conduct out of school could have an impact on their role and reputation within school. Civil, legal or disciplinary action could be taken if they are found to bring the profession or institution into disrepute, or if something is felt to have undermined confidence in their professional abilities.

### Parents / Carers

- Parents' attention will be drawn to the school e–Safety Policy in newsletters, the school prospectus and on the school website.
- A partnership approach to e-Safety at home and at school with parents will be encouraged. This may include offering parent evenings with demonstrations and suggestions for safe home Internet use, or highlighting e–Safety at other attended events e.g. parent evenings and sports days.
- Parents will be requested to read and sign the school Acceptable Use Policy for pupils and discuss its implications with their children.
- Information and guidance for parents on e–Safety will be made available to parents in a variety of formats.
- Advice on useful resources and websites, filtering systems and educational and leisure activities which include responsible use of the Internet will be made available to parents.

## **E-Safety Rules**

These e-safety Rules help to protect pupils and the school by describing acceptable and unacceptable computer use.

- The school owns the computer network and can set rules for its use.
- It is a criminal offence to use a computer or network for a purpose not permitted by the school.
- Irresponsible use may result in the loss of network access or Internet access.
- Network access must be made via the user's authorised account and password, which must not be given to any other person.
- All network and internet use must be appropriate. Within formal school hours all internet use must be for an educational purpose.
- Copyright and intellectual property rights must be respected.
- Messages shall be written carefully and politely, particularly as e-mail could be forwarded to unintended readers.
- Anonymous messages and chain letters are not permitted.
- Staff should not refer to the school, its pupils or members of staff on social media or in personal publishing space e.g. blogs online.
- Use for personal financial gain, gambling, political activity, advertising or unspecified illegal purposes is not permitted.

The school may exercise its right to monitor the use of the school's computer systems, including access to websites, the interception of e-mail and the deletion of inappropriate materials where it believes unauthorised use of the school's computer system may be taking place, or the system may be being used for criminal purposes or for storing unauthorised or unlawful text, imagery or sound.

## FEDERATION OF MOWDEN SCHOOLS (ACADEMY TRUST)

### ACCEPTABLE INTERNET AND MOBILE DEVICE USE STATEMENT FOR ALL SCHOOL STAFF AND VOLUNTEERS

The computer system is owned by the school and is made available to pupils to further their education and to staff to enhance their professional activities including teaching, research, administration and management. The school has an Internet Access Policy drawn up to protect all parties - the pupils, the staff, volunteers and the school.

The school reserves the right to examine or delete any files that may be held on its computer system or to monitor any Internet sites visited.

- Access should only be made via the authorised account and password that should not be made available to any other person.
- The security of the ICT system must not be compromised.
- Sites and materials accessed must be appropriate to work in school. Users will recognise materials that are inappropriate and should expect to have their access removed.
- There may be occasions when a teacher may have photos/videos of children on school-owned cameras for educational reasons.
- Images and videos should be stored in the "DriveStorage" area of the school network. Staff may have photos of current pupils in their personal workspace but these must be transferred to the Staff Confidential area or deleted ASAP. Of course, it is expected that such photographs and videos are only used for educational purposes.
- All confidential data including photographs, tracking data and reports should be stored only on an encrypted memory pen when leaving the site. It is expected that this information is only saved on these memory pens, not on personal PCs or laptops.
- Users are responsible for all e-mail sent and for contacts made that may result in e-mail being received.
- The same professional levels of language and content should be applied as for letters or other media, particularly as e-mail is often forwarded.
- Posting anonymous messages and forwarding chain letters is forbidden.
- Copyright of materials and intellectual property rights must be respected.
- All Internet use should be appropriate to staff professional activity or to student's education. Please note that:-
  - The school's ICT system may be used for appropriate private purposes outside of school hours.
  - Use for personal financial gain, gambling, political purposes, advertising or accessing social networks is forbidden.
  - Closed discussion groups can be useful but the use of public chat rooms is not allowed.
- Staff/volunteers should not refer to the school, its pupils or members of staff on social media or in personal publishing space e.g. blogs online.
- Staff/volunteers may interact with parents in social media spaces but must ensure that these interactions are professional at all times.
  
- I will report any incidents of concern regarding children's safety to the school e-Safety Coordinator or the Designated Child Protection Coordinator.
  
- I will ensure that any electronic communications with pupils are compatible with my professional role.
  
- I will promote e-safety with pupils in my care and will help them to develop a responsible attitude to system use and to the content they access or create.
  
- The sending of abusive or inappropriate messages or content via mobile phones or personal devices is forbidden
  
- Staff/volunteers mobile phones and personal devices will be switched off during formal teaching time. Staff may use their mobile phone/personal device during break and lunchtimes in the staffroom or office. Mobile phones/personal devices may be used in the classroom after 3.30pm

providing there are no children present. Mobile phones/personal devices, including those with camera facilities, are not permitted within EYFS teaching areas. Staff/volunteers working within EYFS must leave their mobile phones/personal devices in their personal locker within the staff room. The exception to this would be the occasional use of a school owned mobile phone/camera and only by the Head Teacher or Deputy Head Teachers

- Personal electronic devices of all kinds that are brought in to school are the responsibility of the user.
- Staff/volunteers are not permitted to use their own personal phones or devices for contacting children, young people and their families within or outside of the setting in a professional capacity.
- Any mobile device must be checked for viruses and spam content before being attached to the school network.
- Staff/volunteers should not use personal devices such as mobile phones or cameras to take photos or videos of pupils and will only use work-provided equipment for this purpose. The exception to this would be the occasional use of a school owned mobile phone/camera and only by the Head Teacher or Deputy Head Teachers
- Staff/volunteers will use a school landline phone where contact with pupils or parents/carers is required.
- Staff/volunteers will ensure that they lock their computer screen when leaving this unattended.

Members of staff are reminded that they should not deliberately seek out inappropriate / offensive materials on the Internet **and** that they are subject to the LA's recommended disciplinary procedures should they do so.

Staff/volunteers should sign a copy of this Acceptable Internet Use Statement and return it to the Headteacher.

(Academy Trust)***

**Using the Internet  
Policy and Guidelines**

2015

Dear Parent/Carer

**Responsible Internet Use**

As part of pupils' curriculum enhancement and the development of ICT and computing skills, Federation of Mowden Schools (Academy Trust) is providing supervised access to the Internet including e-mail. We believe that the effective use of the World Wide Web and e-mail is worthwhile and is an essential skill for children growing up in the modern world.

Federation of Mowden Schools (Academy Trust) are taking positive steps to deal with the risks of internet use. Our school Internet access provider, the Northern Grid for Learning, operates a filtering system that restricts access to inappropriate materials. This may not be the case at home. To help you in this respect we enclose a sheet of school rules for responsible and safe Internet access.

**Whilst every feasible step is made to ensure that suitable restrictions are placed on the ability of children to access inappropriate materials, the School cannot be held responsible for the nature or content of materials accessed through the Internet. The School will not be liable for any damages arising from your child's use of the Internet facilities.**

**I hope that you will agree that the opportunities offered by this technology far outweigh any potential risk. We would be grateful if you could read the attached and sign and return the consent form so that your child may reap the benefits of using the Internet at school.**

I attach copies of the Rules for Responsible Internet Use and Digital Media Use that we operate at Federation of Mowden Schools (Academy Trust). Please take time to read and discuss these with your child.

Yours sincerely

Mr P King  
Headteacher  
Federation of Mowden Schools

## Using the Internet

### **As a School we will...**

- Make pupils aware of the rules and their responsibilities
- Ensure that, wherever possible, websites have been monitored prior to them being used with pupils
- Teach a programme of digital literacy across the school
- Make pupils aware of their responsibility for the communications they send
- Ensure that an appropriate level of Internet filtering is provided to minimise the possibility of accessing inappropriate content
- Monitor pupil usage of the Internet, where necessary
- Ensure that if photographs of pupils are published on the Internet, they are not annotated with their full names or other personal information (such as address and/or phone number)
- Provide appropriate sanctions for pupils who intentionally break the rules of this policy

### ***As a parent, I will...***

- Ensure that my child/children understand the importance of following the school's rules for using the Internet

The school may exercise its right by electronic means to monitor the use of the school's computer systems, including the monitoring of web-sites, the interception of E-mails and the deletion of inappropriate materials in circumstances where it believes unauthorised use of the school's computer system is or may be taking place, or the system is or may be being used for criminal purposes or for storing text or imagery which is unauthorised or unlawful.

## Rules for Responsible Internet Use

The school has installed computers and Internet access to help our learning.

These rules will keep everyone safe and help us be fair to others.

- I will only use my own login.
- If I have been given a password I will keep this a secret.
- I will not access other people's computer account or their work.
- I will use the computers only for schoolwork and homework.
- I will not bring memory sticks into school without permission.
- I will only use websites which my teacher has given me permission to go on.
- When I am using a computer, I will always be polite and sensible.
- I will not give my full name, home address, e-mail address or phone number, or arrange to meet someone, unless my parent, carer or teacher has given permission.
- I will tell a teacher if I see something inappropriate or that makes me unhappy.
- I understand that the school can check my computer files and the Internet sites I visit.
- Be aware that information on an Internet web site may be inaccurate or biased.

Think then click!

## Digital Media Use

The Senior Leadership team have discussed how photographs and videos are used to record events and celebrate achievements at Federation of Mowden Schools (Academy Trust). There are two types of situations where photographs are taken:

- a) staff and pupils taking photographs of school trips, visits, sporting fixtures and special events
- b) public situations where the school allows parents and others to take videos and photographs (including local newspapers)

Sadly, we have to take care that any images or photographs taken in school are never misused and reduce the risk of this occurring whenever possible whilst, at the same time, keeping a sensible balance.

- 1. Individual pupils will not be named or include other data such as home address/telephone numbers.**
- 2. We will never use images or photographs that may cause offence, embarrassment or distress to the child or their parent/guardian.**
- 3. We may use the photographs to add to our website or add to school displays.**
- 4. We will only use images of pupils in suitable dress.**
- 5. If Federation of Mowden Schools (Academy Trust) has any doubts concerning the appropriateness of a photograph or image, we will, of course, contact parents/guardians and gain written consent before its use.**
- 6. If parents/guardians want to take photographs or videos of special events, please check with a member of staff before the event. Of course, it is expected that such photographs and videos are only to be used for family purposes and will not be sold or distributed.**

Having read the above Policy, I do hope that you feel reassured that Federation of Mowden Schools (Academy Trust) has done all that it can to ensure the safe and proper use of images and photographs.

We would be grateful if you could complete the Consent Form - Responsible Internet Use. The completion of the form is a one-off requirement at Federation of Mowden Schools (Academy Trust).

Any parent/guardian who wishes to change their position either by withdrawing consent already given, or giving consent for the future, must do so in writing, addressed to the Headteacher.

## Federation of Mowden Schools (Academy Trust)

### CONSENT FORM - Responsible Internet Use

Please complete, sign and return to the school as soon as possible.

#### **Pupil's Agreement**

I have read and understand the Federation of Mowden School's *Using the Internet Policy* and the *Rules for Responsible Internet Use*. I will use the computer system and Internet in a responsible way and obey these rules at all times.

**Pupil's signature:**

**Date:**

**Please print name:**

#### **Parent/Carer's Consent for Internet Access**

I have read and understand the Federation of Mowden School's *Using the Internet Policy* and the *Rules for Responsible Internet Use* and give permission for my son / daughter to access the Internet. I understand that the school will take all reasonable precautions to ensure pupils cannot access inappropriate materials. I understand that the school cannot be held responsible for the nature or content of materials accessed through the Internet. I agree that the school is not liable for any damages arising from use of the Internet facilities.

**Parent/Carer signature:**

**Date:**

#### **Parent/Carer's Consent for Web Publication of Work and Photographs by Federation of Mowden Schools (Academy Trust)**

I *\*agree/do not agree* that, if selected, my son's/daughter's work may be published on the school's website.

I *\*agree/do not agree* that photographs that include my son/daughter may be published in line with the *Digital Media Use* policy.
