This has resulted in children becoming more confident at participating in 'new' sporting activities and willing to participate further in the future. There have been positive comments from parents who attended and who have been inspired to be more active with their children. Y6 PE leaders are now able to start leading lunchtime activities for Y4 children with confidence, which we hope will result in greater participation in physical activity.</p>

<p>1. To improve the quality and breadth of equipment available for the children.</p>	<p>Throughout the year 2015/2016</p>	<p>1.To replace broken cones that are not fit for purpose and purchase high quality goal-posts and nets.</p>	<p>3 Football Posts and Nets £7500</p>	<p>These high quality football posts and nets will result in more children being able to participate in games for many years to come. We are able to have many small sided games taking place at the same time. More children are now participating in football games at morning break and lunchtime. Having high quality posts has increased children's enthusiasm and respect for equipment. We have seen a reduction in behaviour problems at break times as there are now more clearly marked smaller pitches; therefore making much better use of our field. There has been increased participation from upper KS2 girls in football and break times and at the lunchtime training session.</p>
<p>To improve teachers' confidence and the quality of teaching so that children develop the skills appropriate to their Year group and stage of development.</p>	<p>Purchase Nov 2015 Use from Jan 2016</p>	<p>Purchase 'Primary Steps in PE' planning scheme which has been recommend by PE leaders from other schools for KS1 and 2. Teachers are still able to use their own dance planning which they have produced and link to IPC topics as appropriate.</p>	<p>Primary steps n PE £350</p>	<p>The purchase of the Primary Steps planning has increased the confidence and competence of teachers and other staff in delivering quality PE lessons. There is better continuity between Year groups. Children's skills in a range of disciplines will increase as the planning is rolled out into next year and a LTP is created.</p>
