

Spring Ideas for Home

A few ideas for activities you can enjoy with your child/children during Spring:

- ❖ Step outside; stop and listen. How many sounds can you hear? Did you hear the same sound? Or was it different? Talk about the sounds and where they came from.
- ❖ Play a guessing game. Talk about the objects in the house and describe them. Can your child guess what it is? E.g. for banana, you could say "it is yellow and we eat it." Can your child describe objects to you?
- ❖ Go for a walk. Talk about the things you can see: the changes that are happening to the trees and plants.
- ❖ Make or draw a blossom tree from your walk. Use paper, glue, pens and pencils or maybe a drawing programme on the computer. Bring your picture to school.
- ❖ Play a game together. Look carefully at the dice and count the spots together. Talk about taking turns and winning and losing.
- ❖ Enjoy a special bedtime story. Go up to bed 5 minutes early, read a story to your child before changing roles and letting your child be the storyteller. Ask lots of questions about books to develop understanding.
