

Eco School

In May 2016 we achieved the Eco Schools Silver award.

<http://www.eco-schools.org.uk/applyforanaward/earlyyears/earlyyearsintro>

We created an Eco team of children who will have the responsibility for collecting fruit waste at snack time for composting and filling and emptying the paper waste.

We have enhanced our outdoor garden and wild area to encourage more insects and wildlife in; through focused activities which include bug hotels, bird feeders and planting.

During focused Eco sessions we have explored water, planting and the world around us.
