

## **Dr Angela Redmond – Chair of Governors**

Parent Governor appointed on 3rd February 2014

Member of the Resources & Standards Committees

No business, personal or other interests to register

Dr Redmond is a married, working mother of one (currently in Class 2) and was born and brought up in Todmorden. She has run her own successful heritage business for many years, but began professional life in corporate finance, before becoming a research fellow with the University of Bradford; a position awarded for publications, teaching, and work with voluntary groups.

Following this Angela went on to work with many varied public, charitable and private sector projects, ranging from governance and resilience planning within the NHS, working on finance boards, setting up charitable trusts, business feasibility studies, planning and scoping. She also continues to teach and lecture, and is currently the secretary of a charitable trust, a member of the advisory board for the Diocese of Bradford, as well as being on the committees of two local unincorporated societies.

Throughout her career she has been heavily involved in education, and is extremely aware of its importance and the fundamental effect it can have throughout a life. As a parent governor, she brings a great deal of experience and commitment to gaining the best education for our children, while supporting the staff of our school in their work. Angela is the link governor for mathematics.
