1 Policy

Barnabas Oley School is eager to develop the excellent relationship which we enjoy with the parents of our school.

We believe it is important to provide the parents with regular opportunities to meet with their child's teacher and discuss progress and wider social and developmental issues.

It is clear that a child will be more successful in his/her learning if parents and teachers maintain good communications.

There will be an Open Evening at the beginning of the academic year, where parents can walk round the classrooms and talk informally to members of staff.

We will arrange parents' appointments for midway through the Autumn and Spring terms.

A full written report will be prepared by the school for parents during the Summer Term. This will contain details progress and attainment and of SATS (where appropriate) and give details of all National Curriculum subjects and other information including absence.

Parents' appointments will be arranged following this to give the opportunity to discuss the report.

Any parent who wishes to see a member of staff is encouraged to make an appointment to do so at a mutually convenient time – usually after school, or early morning.
