

Youth Sport Trust Quality Mark

Orchard Fields Community School have just been awarded the **Youth Sport Trust Silver Quality Mark**. Youth Sport Trust is an independent charity devoted to changing young people's lives through high quality physical education and sporting opportunities. Due to our continued involvement in both physical education within school and competitive sporting activities within the NOSSP, we have been recognised as a school who continues to implement consistent high quality physical education for all of our students. Our efforts to move from bronze to silver have been recognised in a number of ways including; increased recognition for the celebration of PE and sport, more competent and confident delivery of PE within curriculum hours, improved leadership and independence amongst young leaders and a more positive attitude towards healthy lifestyles.

This is to certify that
Orchard Fields Community
has achieved a Silver standard in the
Youth Sport Trust Quality Mark self-review
