### Maths Homework

As part of our focus on Maths this year we are introducing [www.activelearnprimary.co.uk](http://www.activelearnprimary.co.uk). It is available from Year 1 upwards in addition to the class learning. Children have their own log in and school code and the site can be accessed from computers, laptops and tablets.

The use of this learning tool is optional; because we appreciate some children do not have access to the internet. We do however intend to set up a homework club after school to allow all children the opportunity to benefit from the resource.
