

Sports Funding 2016-17 - Information for Parents

The Government has made available additional funds to all primary schools for 2016-2017. This money must be spent on improving the provision of PE and sport for the benefit of pupils registered at that school so that all pupils develop healthy lifestyles.

The funding is £9,105 (£8,000 plus £5 per pupil). Some extra funding from our school budget has been added to supplement expenditure. Governors have agreed that at Ibstock Junior School, the Sports Funding will be allocated in the following ways:

Activity	Cost	Why we think it will benefit
Participation in the local Sports Partnership	£2605 (£1500 to join plus £5 x 221 pupils)	Ongoing participation in a wide variety of sporting activities, including the opportunity to take part in competitions. Representatives from the partnership will be helping us to achieve the Sainsbury 'silver award' for sports.
Participation in after school clubs - Premier Sports	£5900 estimate	The school aims to increase access for children to take part in regular physical activity. The clubs on offer will be from a range of sports. These clubs will be running every night after school. As there is no longer a charge for parents for clubs, we hope that a wide range of children participate. There are 20 spaces at each club, hence we are offering 100 free PE places for children each week. The clubs will be chosen by the children, via the School Council.
Cost of transport to 'Area sports' and other sporting events	£400 estimate	These particular events are in the daytime; it is difficult to rely on parents to transport large groups of children so the funding is particularly useful.
PE equipment and resources	£200	Provide high quality resources which will enable and encourage children to take part in a variety of physical activity and develop their skills.

Total spending: £9105

School staff and Governors will evaluate this spending very carefully to check that it has a positive impact on pupils' health and well-being along with participation in and enjoyment of physical activity.
