

Broom Cottages Primary & Nursery School

Sex and Relationship Education Policy (SRE)

Date of Policy: March 2015, reviewed 9 May 2016

This policy was developed in response to Sex and Relationship Education Guidance DfES 2000, the National Teenage Pregnancy Strategy and National Healthy Schools Programme.

2. The Consultation Process Has Involved:

- Pupil focus groups
- Review of SRE curriculum content with staff and pupils
- Consultation with wider school community e.g. school nurse, EDS
- Consultation with school governors

3. What Is Sex and Relationship Education?

SRE is lifelong learning about physical, sexual, moral and emotional development. It is about the understanding of the importance of stable and loving relationships, respect, love and care, for family life. It involves acquiring information, developing skills and forming positive beliefs, values and attitudes.

4. Principles and Values

In addition Broom Cottages Primary and Nursery School believes that SRE should:

- Be an integral part of the lifelong learning process, beginning in early childhood and continue into adult life.
- Be an entitlement for all young people
- Encourage every student to contribute to make our community and aims to support each individual as they grow and learn.
- Be set within this wider school context and supports family commitment and love, respect and affection, knowledge and openness. Family is a broad concept; not just one model, e.g. nuclear family. It includes a variety of types of family structure, and acceptance of different approaches.
- Encourage students and teachers to share and respect each other's views. We are aware of different approaches to sexual orientation, without promotion of any particular family structure. The important values are love, respect and care for each other.
- Generate an atmosphere where questions and discussion on sexual matters can take place without any stigma or embarrassment.
- Recognise that parents are the key people in teaching their children about sex, relationships and growing up. We aim to work in partnership with parents and students, consulting them about the content of programmes.
- Recognise that the wider community has much to offer and we aim to work in partnership with health professionals, social workers, peer educators and other mentors or advisers.

Sex and Relationship Education in this school has three main elements:

Attitudes and Values

- learning the importance of values, individual conscience and moral choices;
- learning the value of family life, stable and loving relationships, and marriage;
- learning about the nurture of children;
- learning the value of respect, love and care;
- exploring, considering and understanding moral dilemmas;
- developing critical thinking as part of decision-making
- challenging myths, misconceptions and false assumptions about normal behaviour.

Personal and Social Skills

- learning to manage emotions and relationships confidently and sensitively;
- developing self-respect and empathy for others;
- learning to make choices with an absence of prejudice;
- developing an appreciation of the consequences of choices made;
- managing conflict;
- empower students with the skills to be able to avoid inappropriate pressures or advances (both as exploited or exploiter)

Knowledge and Understanding

- learning and understanding physical development at appropriate stages;
- understanding human sexuality, reproduction, sexual health, emotions and relationships as pertain to age and 'maturity'.

5. Aims

The aim of SRE is to provide early balanced factual information about human reproduction, together with consideration of the broader emotional, ethical, religious, and moral dimensions of sexual health. Our SRE programme aims to prepare students for an adult life in which they can:

- develop positive values and a moral framework that will guide their decisions, judgements and behaviour; have the confidence and self esteem to value themselves and others and respect for individual conscience and the skills to judge what kind of relationship they want.
- communicate effectively by developing appropriate terminology for sex and relationship issues.
- develop awareness of their sexuality and understand human sexuality; challenge sexism and prejudice, and promote equality and diversity

6. Organisation and Content of Sex and Relationship Education

Broom Cottages Primary and Nursery School specifically delivers Sex and Relationship Education through its PSHE Programme, RE and Science lessons at KS2. We use recommended materials that have been vetted by staff, parents and Governors these materials have in some cases been recommended by our PCT colleagues, delivery will also involve our school nurse and other staff..

Much of the Sex and Relationship Education at Broom Cottages Primary and Nursery School takes place within PSHE lessons. Teachers generally deliver the PSHE Curriculum with support from professionals where appropriate. Class teachers work closely with their pupils over a number of years and we believe that they are usually the best people to work with the students on many of the SRE topics as they are aware of each student's individual circumstances. SRE lessons are set within the wider context of the PSHE curriculum and focus more on the emotional aspects of development and relationships, although the physical aspects of puberty and reproduction are also included. The PSHE Programme and Science National Curriculum is taught in every year .

Any SRE lesson may consider questions or issues that some students will find sensitive. When students ask questions, we aim to answer them honestly, within the ground rules established at the start of the sessions. When it is felt that answering a specific question would involve information at a level inappropriate to the development of the rest of the students, the question may be dealt with individually at another time.

7. Inclusion

Ethnic and Cultural Groups

We intend our policy to be sensitive to the needs of different ethnic groups. For some young people it is not culturally appropriate for them to be taught particular items in mixed groups. We will respond to parental requests and concerns.

Students with Special Needs

We will ensure that all young people receive sex and relationship education, and we will offer provision appropriate to the particular needs of all our students, taking specialist advice where necessary.

Sexual Identity and Sexual Orientation

We aim to deal sensitively and honestly with issues of sexual orientation, answer appropriate question and offer support. Young people, whatever their developing sexuality need to feel that sex and relationship education is relevant to them.

8. Right of Withdrawal of Students from Sex and Relationship Education

Some parents prefer to take the responsibility for aspects of this element of education. They have the right to withdraw their children from all or part of the sex and relationship education except for those parts included in the statutory National Curriculum (i.e. in Science lessons). We would make alternative arrangements in such cases. Parents are encouraged to discuss their decisions with staff at the earliest opportunity. Parents are welcome to review any SRE resources the school uses.

9. Confidentiality, Controversial and Sensitive Issues

Teachers cannot offer unconditional confidentiality. Teachers are not legally bound to inform parents or Headteacher of any disclosure unless the Headteacher has specifically requested them to do so.

In any case where child protection procedures are followed, the teacher will ensure that the young person understands that if confidentiality has to be broken, they will be informed first.

Health professionals in school are bound by their codes of conduct in a one-to-one situation with an individual student, but in a classroom situation they must follow the school's confidentiality policy.

10. Monitoring and Evaluation of Sex and Relationship Education

The SRE aspect of our curriculum will be reviewed bi annually.
