

## Sports Presentation Evening

Sports Presentation evening is an annual event where by we come together as a school sporting community to celebrate individual and team success. All children who have represented a school team or met the sports club attendance criteria are invited to attend the evening. Parents/carers are also invited to attend this inspiring evening sharing in the success of the children.

The evening begins with Mr Hood (Head Teacher) addressing our guests highlighting some of the triumphs of the year before handing over to the PE team. The evening follows an order of ceremonies in which each club and team achievement is fully recognised through all the children associated being invited on stage to receive their awards. Within each team prestigious individual recognition awards are presented which include Players Player, Managers Player, Most Improved and Club Player. The evening culminates with two final categories which recognise individual achievement over a sustained duration of time. These awards are the 'Break Out Star' and 'Sportswoman and Sportsman of the Year.'

We believe that hard work, effort, commitment and participation in sport is essential in furthering the continued development and ongoing success of the young people in our school.
