

Our Value in April is **Trust**

- A belief in the honesty, reliability and strength of another person; the acceptance of a statement not backed up by evidence; reliance on someone or something.

At school we will be talking to the children about building trust through keeping our promises and being honest with ourselves and others. Trust is closely linked to the values of Responsibility, Honesty and Respect. The children will be asked to say how they are trusted when they take responsibility, e.g. being register monitor, and explore how being respectful and honest with others builds trust in them as a person.

Thought for the month: 'We trust people we can count on. We count on people who do what they say they will do when they say they will do it.'

At home you could give your child a task to do and tell them that you trust them to complete it. Try not to remind them, just ask them how they got on at the end of the week.
